

### **REMARKS**

The amendments to the specification have been made to make reference to the parent applications and to correct typographical errors in the specification. Entry of the amendment is therefore requested.

With reference to the restriction requirement of May 27, 2003 issued in parent application Serial No. 10/291,601 filed November 12, 2002, applicants elect claims 16 to 19 for prosecution in this application. Claim 17 has been amended to include the formula (1) and claim 19 divided into amended claim 19 and new claim 23.

The Examiner may consider claims 20-22 to be withdrawn. Applicants reserve the right to file a divisional application on these claims.

Examination of claims 16-19 and 23 in this divisional application is requested.

Please grant any extensions of time required to enter this paper and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,
